Compendium Amendment

Golden Gate National Recreation Area Visitor and Resource Protection Measures

TITLE 36 CFR § 1.5 (a)

Compendium of designations closures, permit requirements, and other restrictions imposed under discretionary authority by the General Superintendent, Golden Gate National Recreation Area.

In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations, Chapter 1, Parts 1 through 7, authorized by United States Code, Title 54, Section 100751, the following regulatory provisions are established for the proper management, protection, government and public use of the Crissy Field Secured Area (described further below), Golden Gate National Recreation Area, under the jurisdiction of the National Park Service.

The following locations in the Crissy Field area are closed to public access on August 26, 2017:

- A. The designated "Permit Area" depicted on the map attached to Special Use Permit # 17-0788
- B. All waters below the mean high tide line out 500 feet from Fort Point to Crissy Field Tidal Marsh outflow

This restriction will remain in effect during the permitted Patriot Prayer event on Saturday, August 26, 2017. Due to the large number of people that are anticipated to come to the Crissy Field area in response to this event, this public use restriction is necessary to maintain public health and safety and to provide an area where the public can safely express their First Amendment rights.
